On behalf of all Californians, I offer my greetings and congratulations for hosting the 2005 "Artists to Artists" Cultural Art Exhibit.

Through the arts, we celebrate the highest ideals of society, and this exhibition features a worldwide network of artists dedicated to connecting people and cultures through fine art.

I commend you for your commitment to bringing communities together and finding a creative context for the rich aspirations of tolerance and global understanding.

Please accept my best wishes for a memorable exhibition and every future success.

Sincerely,
